The basement, occupied by John Stockwell, dealer in brass, the first floor used as a machine shop by John Votike and the second floor, occupied as a carpenter shop by C. F. Wilken, are damaged by water to the extent of \$2,000.

Herder estimates the value of his plant at \$6,000; insured for \$2,000, which will cover his loss. About \$2,000 will repair the damage to the building and Batchelar's printing outful.

One gentleman said: "Yes, there is something in it, but I am very confident that there is nothing serious and I would rather not say anything about it."

Inquiry in this city brought out the fact that Mr. Vanderbiit sailed for Newport at 2 o'clock this afternoon on his yacht, the Alva. He has been attending to business at the Grand Central Depot ever since he got here on Monday last, and made no complaint of feeling unwell or of a return of the attack of vertigo which is reported to have troubled him on Monday.
